

Credit Card Application for SAP® Business One

Credit cards are an indispensable part of business today.

The Credit Card Application is a fully integrated and certified add-on for SAP Business One. It makes authorization, authentication and settlement predefined and automatic.

- ✓ Offer a secure SSL encrypted connection using VeriSign
- ✓ Support multiple credit cards in a single transaction
- ✓ Quick and convenient settlement of multiple invoices in the batch mode through a user-friendly wizard
- ✓ Increase retention by allowing customers with recurring charges to pay automatically
- ✓ Reduce errors and improve billing and collection

Your business can accept all major credit cards, and seamlessly process transactions in real time from SAP Business One.

Easy, Secure Credit Card
Payments for Every
SAP Business One Business!

Features
