Product Summaries

- ◆ **Report One**—a comprehensive business performance management and end-user reporting tool for launching and managing Crystal or MS Reporting Service Reports, quickly and easily right from within the SAP Business One™ application suite.
- ◆ **Credit Card**—The Credit Card Payment module for SAP® Business One provides efficient and convenient processing of credit card transactions, and secure credit card payment processing directly within the Business One system.
- ◆ **Shipping One**—provides real-time visibility of UPS, FedEx, and DHL customer orders in transit, seamlessly integrated with the Business One accounting and logistics modules.
- ◆ **Bin Locations**—provides real-time management of inventory by bin location, and allows users to methodically assign bin locations per items per multiple warehouses, as well as define best picking paths for optimal pick and put away efficiency.
- ◆ **Unit of Measure**—easily apply conversions to inventory items in order to purchase, maintain stock, and sell in different units of measure.
- ◆ **Recurrence**—allows you to create recurring documents such as A/R Invoices and A/P Vouchers within SAP Business One, and define the frequency by year, month, week, day, number of times, or start date and end date.

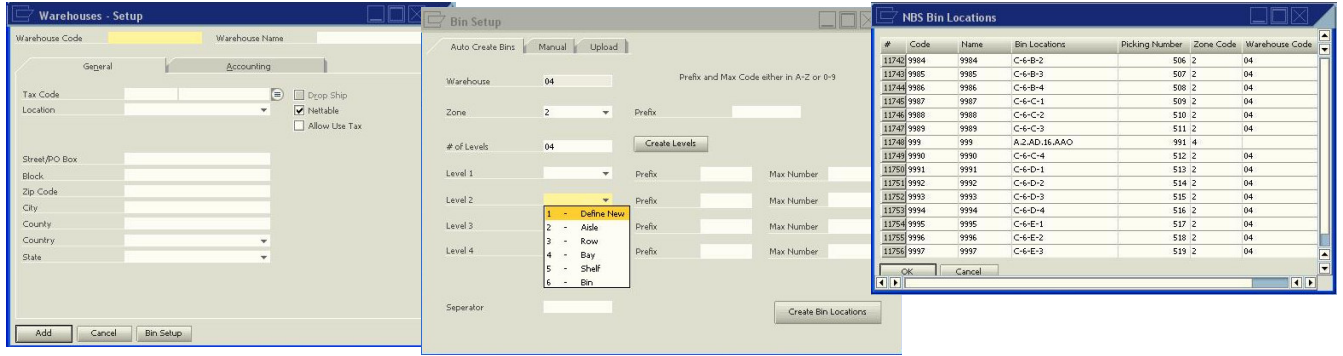

Credit Cards—Process Credit Card Transactions, and Payment Processing

Item No.	Item	Item Description	Quantity	Summary Type	No Summary
1	LM4029	Lexmark-4029 Printer	2		
2	CB7973	Basic package with a low processor	2		

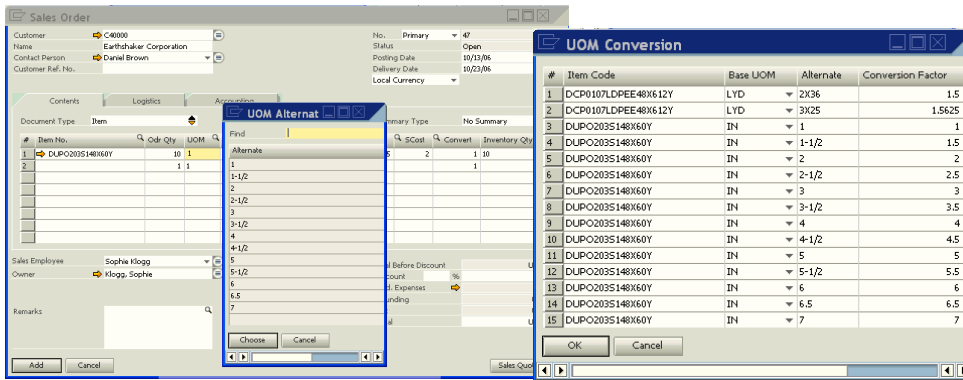

Shipping—Integrate with UPS, FedEx, and DHL

Carrier	M/W	2,000,000	5,000,000
UPS Ground	100.00	2.00	3.00
	1,000.00	6.00	8.00
	2,000.00	10.00	20.00

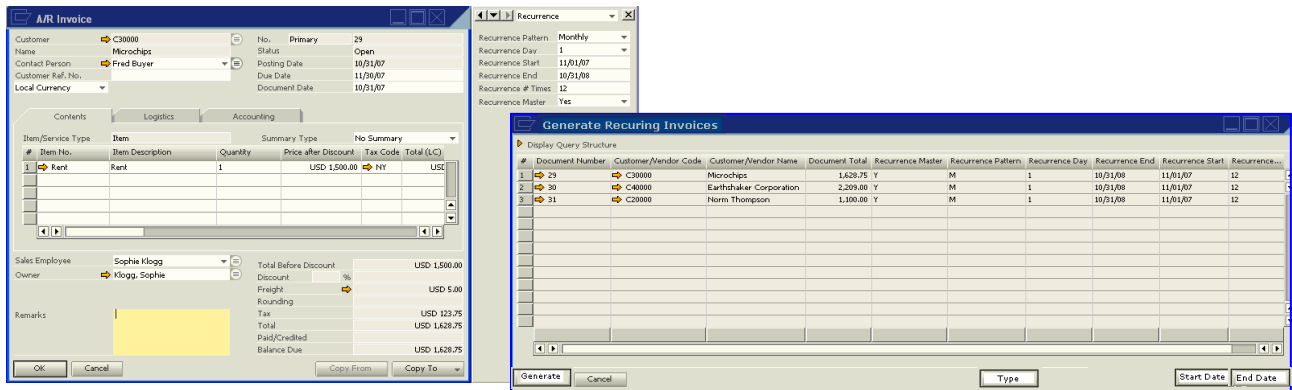

Bin Management—Real-Time Management of Inventory by Bin Location.

Unit of Measure—Standard Unit of Measure Conversions in Order Entry, Purchasing, and Production

Recurrence—Automate Recurring A/R Invoices and A/P Vouchers, and Define Frequency.
